

APUS

RIGID INFLATABLE BOATS AND ROLL-UP INFLATABLES
A PRODUCT LINE BY SWIFT INFLATABLES

Back: 290 RIB; centre: 250 RIB; front: 230 Roll-up

We listened to our Customers and we decided to introduce our own RIBS and Roll-up Inflatable Yacht tenders manufactured to the highest quality standards but at affordable prices. All the craft feature collars manufactured in genuine Pennel Industries Orca Hypalon and the RIB hulls are aluminium alloy for extreme durability. As standard the three chamber tubes are large diameter for maximum buoyancy and cushioning when in a seaway

The manufacturing centre is qualified with an ISO9001 Rating and the craft are CE marked.

Apus inflatables carry a one year warranty on the complete craft with a five year extended warranty for the Hypalon tube material.

Model	Overall Length (CM)	Overall Width (CM)	Inside Length (CM)	Inside Width (CM)	Tube Dia. (CM)	NO. of Chamber	Net Weight (KG)	MAX Power (HP)	MAX Load (KG)	MAX Person	Motor shaft length
250 RIB	250	149	156	66	42	3	38	5	450	2	Short
270 RIB	270	149	170	66	42	3	41	7.5	550	2/3	Short
290 RIB	290	149.5	195	66	42	3	44	7.5	550	3	Short
310 RIB	310	149.5	205	66	42	3	49	10	600	3/4	Short
360 RIB	360	156	254	67	45	3	72	15	690	5/6	Short
230 ROLL-UP	230	137	151	60	36	3 + Keel	38	4	350	2	Short
290 ROLL-UP	290	155	185	68	42	3 + Keel	52	10	510	4	Short

Apus RIBs come complete as standard with: One-piece aluminium alloy hull; Anti-skid floor surface; Two oars; Seat adjustable fore and aft; Lifting eyes; Air pump – foot operated; Tube repairing kit; Bow warp.

Apus Roll-ups come with Aluminium Alloy floor; Two oars; Seat adjustable fore and aft; Air pump – foot operated; Tube repairing kit; Carrying bag; Bow warp.

An Apus 310 RIB supplied to the Datai Hotel Langkawi and operated as a Safety Boat by their Watersports Centre.

The craft is fitted with optional tube covers that help to protect the Hypalon from sun tan oils used by guests.

The RIB is also fitted with optional launching wheels to allow easy launching and recovery. The wheels can be quickly removed and stowed in an upright position as shown.
